

A protective mother warns her daughter about Submariners

The hospital provides the very best of care and attention to thier young charges.

## American Submariner 2009-1 February 2009 Reading Base - Pennsylvania

### KAP(SS) 4 KID(SS)

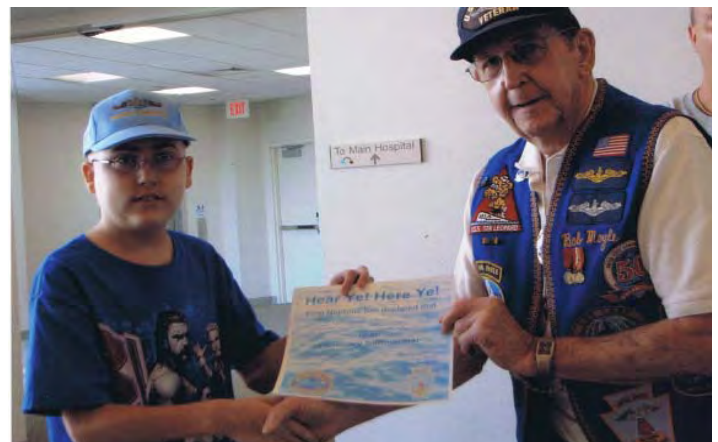

United States Submarine Veterans want to put a smile on the face of children undergoing cancer care. That's why representatives from the group's Reading chapter (center, l-r) Fernley Wagner Jr., Richard O'Keefe and David Hellwig donated 22 pink and 24 blue hats to the Pediatric Specialty Center at Lehigh Valley Hospital—Muhlenberg.

Social workers Rose Schenk (left) and Nancy Winters (right) will give the hats,embroidered with the group's logo, to hide

the hair loss that results from chemotherapy. "Children are our future, and we want to do everything we can to take care of the next generation," Hellwig says.

Thanks to the generosity of the Reading Base membership 35 pink and 35 blue KAP(SS)4KID(SS) were purchased. In May 2008, 22 pink and 24 blue caps and Honorary Submariner Certificates were presented to the Center. Reading Base is on call to provide additional caps to the hospital as needed..

Reading Base Member **Bob Moyle** presents an "Honorary Submariner" certificate to a blue cap wearing Center patient.
